

A top-down view of a science experiment setup on a light blue surface. In the center is a clear plastic Ziploc bag with a pink zipper, containing a white, fluffy substance resembling ice cream. To the left, a small white bowl is filled with multi-colored sprinkles, with some scattered on the surface. To the right, two silver spoons are placed side-by-side. The text "Ice Cream Laboratory" is overlaid in large, bold, black font across the center of the image.

Ice Cream Laboratory

The image features six white cups of ice cream arranged in two rows of three. The top row includes: a cup with green ice cream, yellow shavings, and chocolate chips; a cup with chocolate ice cream and chopped nuts; and a cup with white ice cream, pink swirls, and pistachios. The bottom row includes: a cup with white ice cream and chocolate chips; a cup with pink ice cream; and a cup with white ice cream and chocolate shavings. A large yellow sun icon is in the top left corner. The background is a light-colored surface with small, colorful polka dots. Centered over the cups is the text "When should you eat ice cream?" in a bold, black, sans-serif font.

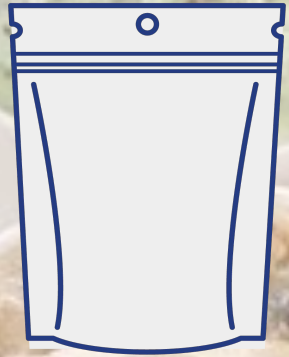

**When should you
eat ice cream?**

What's in ice cream?

1 cup ice.
80 ml salt

120ml half n' half.
1.2ml vanilla.
15 ml sugar.

Factory Ice Cream

**Mixes,
pasteurizes,
cools, then
freezes ice
cream**

The image shows six white plastic cups of ice cream arranged in two rows of three. The top row from left to right: a light green ice cream topped with dark brown chocolate shavings; a light brown ice cream topped with chopped nuts; a white ice cream with pink and yellow swirls, topped with green pistachios and pink sprinkles. The bottom row from left to right: a light beige ice cream with large chocolate chips; a light pink ice cream; a light beige ice cream with a swirl pattern. The background is a white surface with small, colorful polka dots. Overlaid on the center of the image is the text "Mix for 5 minutes" in a large, bold, black font.

**Mix for 5
minutes**
